

## SAT Online Registration

The easiest way to communicate with College Board is through their web site. Once you have established an account, you can register for SAT tests, check your registration, view your scores and send your scores to colleges. Be sure to record your login and password information and keep it in a safe and convenient place.

Things to remember when registering for the SAT:

- To select Loomis Chaffee as your test Center, enter 07715 in the Test Center Code box. If you are a day student, select a second choice near your home that offers the test on that date. Boarders select Windsor High School (Test Center Code 07720) or Hall High School in West Hartford (Test Center Code 07680). After reviewing your selections, you must pay for the test with a credit card.
- If you already have a College Board online account, do not create a new one. Use the same login that you previously used to access your account. If you have previously registered for the SAT with a paper registration form, you must create your account using the same name, social security number, and address that you used on the previous registration. Using different information may cause College Board to create multiple accounts for you, which may result in complications in the future.
- Boarders: Use your home address for each test registration. Although your official test score will be mailed to this address, you will be able to access your test scores online.
- You will be guided to an SAT Questionnaire that enables you to participate in College Board's Student Search service. We do not recommend that you complete this questionnaire; it takes a significant amount of time and will cause you to receive a large amount of direct mail from colleges. (You will have the opportunity to sign up for mailing lists of colleges that interest you at college nights in your junior and senior year.) Even if you don't want to participate in the Student Search service, a response is required to some of the questions before the system will let you move to the next screen. We recommend that you select "I do not wish to respond" at the end of the answer choices. You will be asked to edit and confirm the information you have provided. Once this is done, you will go to "SAT Registration."
- Be sure to indicate the high school you attend. It is very important that you include this information or we will not receive a copy of your test results in the College Guidance Office. Click on Search next to "High School Name" and enter 070945 in the School Code field.
- The final screen you will see is the Confirmation and Admission Ticket. It is very important that you print a copy of this screen as it serves as your admission ticket and has all the information you will need for the testing day.

If you have any questions about any aspect of the SAT registration process, contact

College Board at 609-771-7600 or speak with your college counselor. Any questions related to the test day at Loomis Chaffee should be directed to Mrs. Lombardo.
